

Worship Internship

Worship Matters Book Review

Purpose

A book review within the worship internship is a helpful way to determine the level of interaction and growth interns are having with the material. Its goal is to help move interns to application of the material and deeper understanding.

Assignment

- A) Describe in a short paragraph the highlight of what you learned for each chapter and how it impacts your life. It works best to write the paragraph for each week after you complete the readings. This way, it will not build up on you and will be very easy to complete. If you wait till the end, this could be tough to remember each chapter and what you learned. Don't put it off till the end -- make it easy on yourself!
- B) At the end of the report, describe in at least one paragraph each:
- How has your view of worship changed since reading this book?
 - What is your number one takeaway after reading this book?
 - What area(s) do you want to grow in most in your worship leading / life of worship?

Length

There is no length requirement for this assignment but if you engage with it fully using the principles listed above, the book report should roughly be around 4 - 6 pages long with 12pt font and double-spaced sentences.
