

WORSHIP MINISTRY

Mission Statement and Core Values Alignment

Our worship ministry exists to draw others to Jesus, model authentic worship, and maximize the gifts of the worship team members. Our core values align with our mission and are displayed through all areas of ministry. They are always in operation and are often happening simultaneously; they come together to help create a culture in the worship ministry that is both felt and measurable. Ultimately, this culture is a way to honor God which begins with helping others see and experience God for who he really is in the person of Jesus and ends with empowering people to help others to the same end.
