

Worship Team Crash Course

Student Requirements

This is what is required of the student during lessons and at home:

- Must arrive at the church campus at the appropriate time. No shows or last-minute cancellations won't be made up unless arrangements have been made 24 hours in advance.
- Practice the assigned content ahead of time to prepare for the next week's lesson and to be completed during the 4-week lesson plan.
- Understand that if the lessons overflow into further lessons, an additional teacher might need to be found if schedules conflict.
- Check with teacher if it is ok to contact them with lesson questions. If so, find out when is ok to contact them.
- Have realistic expectations. Remember: going through this crash course does not guarantee placement on a worship team but it will help you grow as a musician regardless of placement. Keeping this big picture view is important for holistic growth as a person and musician.
